I realize now a big reason I feel bad abt myself is bc I eat a lot of warm meat & that takes more time to digest.

also bc of systemic oppression & my mom was hard on me.

all three of those things.

what's more insidious abt suburban racism is that it's so sneaky, u can barely tell what's happening to u bc everyone is "democrat" (moderate) & nice (repressed).

it hits u in ur 30s one day during a weekday solo all eggs breakfast like, "o that explains it."

all I need in this life of sin is me and my best dudes, capped 30hour workweek, time to pursue my interests of becoming a radicalized marxist online, abundant time to chill, regular job (not too much pressure), forgive chicfila so we can eat guilt free & health care benefits.

it sucks that the redistribution of wealth falls on individuals bc the govt is unable to effectively tax the 1%, who own 40% of total wealth, so the rich will continue to rule & we'll keep cancelling ea. other unless jeff bezos contributes 1/2 his wealth to low income communities

I asked my dad if have a similar comedic style to Adam Sandler and he said, "Yes. I don't like Adam Sandler."

In a trickle down gig-based economy, my father is truly my biggest supporter.
